North American List of Fish Health Contacts by Affiliation

Introduction

At a recent Great Lakes Fish Health Committee meeting in Minneapolis, Minnesota (February 16-17, 1995), Committee Chairman Al Sippel asked me to complete a new GLFHC-approved certifying officials list and if possible expand it to include other fish health contacts.

Many lists are available, many are maintained and updated, and some were gathering dust. However, there was no single source of information. This is an attempt to compile all available sources into "The List". Due to the length of the list any names omitted, retired or no longer with listed affiliation, was not intentional. Every effort was made to verify the names and addresses.

Any comments or changes will be gratefully received and can be forwarded to:
